Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Applicants' response of 6/21/05 has been considered with the following results.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

1. Claims 1,2, 13-15 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In particular as now recited in the penultimate paragraph of claim 1

"a multiplier for producing a drive signal 1 for driving said carriage device based on at least a periodic sample of the averaged equalizer signal generated by the averaging unit and at least a periodic sample of the periodic signal generated by the pulse producing unit;";

however, as disclosed in:

- a) figure 2, while the multiplier 28 receives a "sampled averaging signal from element 24 via the switch 26, there is no sample of the periodic signal from element 27, while in
- b) figure 4, multiplier 28 receives an average signal from element 24, receives a sampled period signal from element 27 via switch 32.

Hence, contrary to the above claimed limitation, there is no multiplier for producing an output signal predicated on at least the periodic sample of the averaged equalizer signal and at least a periodic sample of the periodic signal. Furthermore, there is no source of the above sampled signals.

Therefore the claims are drawn to a disclosure/specification not found as originally filed.

With respect to claim 11, such limitations are found in the ultimate paragraph of the claim.

With respect to claim 19, such limitations are found in the ultimate paragraph of the claim.

The dependent claims do not clarify the above and fall accordingly.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
